

CHANGE MANAGEMENT TRENDS 2023

Many thought leaders, authors, and analysts highlight the momentum that the change management field is taking in 2023 where organizations are implementing strategies and tactics to become more agile and more responsive to market and customer needs.

CHANGE AGILITY AS ORGANIZATIONAL CULTURE

 Foster a culture of experimentation Provide a safe environment where people can try new things and learn from their failures.	 Create cross-functional teams Build teams that include individuals from different departments and areas of expertise.	 Develop a customer-centric approach Create products and services that solve real problems for your customers.	 Be open to feedback Use feedback to continuously improve and iterate on products and services.	 Implement a flat organizational structure Flatten the organizational hierarchy to create a more agile decision-making process.
